PARTICIPATION

Completed MOOCs:

Introduction to Databases *Jennifer Widom*

(in progress) Stanford OpenEdX, January–March 2014

Principles of Reactive Programming

Martin Odersky, Erik Meijer, Roland Kuhn

(100%) Coursera, November–December 2013

Functional Programming Principles in Scala Martin Odersky

(100% with distinction) Coursera, September–November 2013

Introduction to Parallel Programming John Owens & David Luebke

(highest distinction) Udacity, June 2013

Computational Neuroscience Rajesh P. N. Rao & Adrienne Fairhall

(99.3%) Coursera, April–June 2013

Introduction to Theoretical Computer Science Sebastian Wernicke

(highest distinction) Udacity, October 2012

Quantum Mechanics and Quantum Computation Umesh Vazirani

(91.4%) Coursera, July–September 2012

Web Application Engineering Steve Huffman

(highest distinction) Udacity, August 2012

Introduction to Logic Michael Genesereth

(100%) Coursera, April–June 2012

Natural Language Processing Dan Jurafsky & Christopher Manning

(90.6%) Coursera, March–May 2012

Introduction to Artificial Intelligence Sebastian Thrun & Peter Norvig

(91.1%) pre-Udacity, October–December 2011

pre-odacity, October-December 2011

Audited MOOCs:

Compilers Alex Aiken

(watched all video lectures) Coursera, April 2013

Probabilistic Graphical Models Daphne Koller

(watched all video lectures) Coursera, September–December 2012

Machine Learning Andrew Ng

(watched all video lectures) Coursera, October–December 2011
